

Collaboration Agreement

Purpose:

This agreement outlines the collaboration between Bharat Eco Solutions & Technologies, Pune and Department of Environmental Science, Shri Shivaji Science College, Amravati to promote sustainable solutions to Environmental Pollution in urban areas.

Objectives:

- Increase awareness about renewable energy solutions.
- To Enhance the quality of Environmental segment.
- Train 200 community members in technology maintenance.
- Skill development of students by providing hands on, internship and courses.
- To promote employability in students in areas of Environment.

2. Scope of Collaboration

This initiative focuses on conducting workshops to empower students with sustainable skills.

Key Deliverables:

- Conduct a joint campaign to raise awareness about sustainable development.
- Organize training sessions for students

3. Roles and Responsibilities:

- Organizing and hosting career fairs where employers and students can connect.
- Ensuring that students receive early access to job opportunities and timely updates.
- Providing students with practice interview sessions to improve their chances during actual interviews.
- Conducting workshops on resume writing, interview techniques, and job search strategies.
- Career workshops, webinars, or networking events to provide valuable insights into specific industries at least once in a year

4. Termination and Exit Strategy

- Either party may terminate the agreement with prior communication.
- This agreement will remain active for 5 years from 2023 to 2027 and can be renewed with mutual understanding.
